|------------------|----------------------|-------|------------|
| Lab exercise 1 | HTTP protocol | | |
| Name and surname | Index number | Group | Date |
| Flamur Limani | 231514 | SEIS | 22.10.2024 |

01. My browser is running 1.1 HTTP, as well as the server

02. en-US

03. IP address of my computer: 192.168.0.20, Server IP address: 128.119.245.12

04. 304

05. Mon, 21 oct 2024 23:56:41 GMT

06. 293

07. There is none

08. Yes I do, the value of modified since is: Mon, 21 oct 2024 05:59:01 GMT

09. Yes, it did, in the Line-based text data section

10. Yes, the info following that is: Mon, 21 oct 2024 6:01:22 GMT

11. 304 not modified; because it is not modified the text of the file is not returned in the http message

12. one http get request and number twelve contains the get message

13. 296

14. 200 OK

15. 2

16. three messages sent, 128.119.245.12

17. The downloads were in parallel, which can be identified from the fact that the get messages for the images are as packets 31 and 35 while the responses are as 37 and 41 (so the request for the second image was made before the response for the first image)

18. 401 unauthorized

19. The HTTP get includes the authorization: Basic field
